# How to search for Moodle Course

Upon login to Moodle, user can use the search bar at Home page when looking for a specific course on Moodle. This is useful when you know the name of a course, and you don't have the direct link on Moodle course.

1. Search for the course name by selecting **Home** at Primary Navigation Menu on top of the page.

2. **Input the specific course name** into the search bar at Home page. Check if you are accessing to the correct course name and ensure you have the course information from your lecturer including your lecturer's name.

3. To view your courses, go to **My Courses** page and select the "**All**" filter.

4. Check with your course lecturer if you are unable to find your course link.
